SOME OF MY PROJECTS

Lan 4 Vote

I collaborated on an app designed to educate citizens in Sierra Leone on proper voting procedures.

TechBiz

I was part of a team that developed an app aimed at helping users locate restaurants and hotels in Sierra Leone, providing detailed information about each establishment

NeuEnergy

I developed an app showcasing comprehensive information about a Sierra Leonean company specializing in electric vehicles, providing users with all they need to know about the company's offerings.

Cash Box

I was part of a team that developed a mobile app allowing users to set savings goals and deposit money for a predetermined duration. Once the set time period is complete, users can withdraw their savings as required.

Booking System

I developed a booking system app tailored for hotels, simplifying the process of collecting and managing all their data efficiently.
